PRODUCT OVERVIEW

Introducing the Serta® Chateau Pillow Top (One-Sided), where luxurious, soft comfort meets durability in this Pillow Top model with a 1-sided, no-flip design. Elevate your sleep experience with a Pocketed Coil System or Mira-Coil System for lower back and hip support. The mattress provides contouring pressure relief for a more relaxing sleep. The comfort layers include Cool Twist™ Gel Foam and Cool Twist™ Gel Memory Foam, along with other luxury foam layers and our Total Edge® Encasement for total-body support. Our mattress offers pressure-relieving comfort while promoting enhanced airflow. Complete the feel with Serta® BodyLoft™ Foam, ensuring reduced pressure build-up and minimal sleep disruption.

PRODUCT OVERVIEW

Immerse yourself in the Serta Chateau Plush (Two-Sided) mattress – the perfect blend of opulence designed for luxury hotels. This Plush model boasts a 2-sided flippable design, embodying the durability expected in hotel-grade mattresses. With the premium hotel-grade Support System and enhanced lower back and hip support, it offers an exclusive comfort upgrade with contouring pressure relief; softness coupled with support below. Our Total Edge® Encasement allows for total-body support. You'll revel in contouring pressure relief for a truly luxurious and restful sleep. Enhancing this experience is our Cool Twist® Gel Memory Foam, a fusion of breathable memory foam technology and cooling gel, ensuring optimal airflow and body contouring.

PRODUCT OVERVIEW

The Congressional Suite Pillow Top (Two-Sided) combines a 13-inch profile with the long-term serviceability of a flippable hospitality design. A Wrapped Coil System provides responsive support beneath layers of BodyLoft, PillowSoft Foam, and Gel Active Foam, creating a cushioned sleep surface with broad guest appeal. Total Edge® Foam Encasement reinforces the perimeter for more consistent edge-to-edge comfort and usable sleep space. Designed for hotel operations that value comfort and durability, this model offers a balanced, medium-plush experience with the added benefit of two-sided rotation and extended service flexibility.

PRODUCT OVERVIEW

The Emerald Suite Pillow Top (One-Sided) brings together a polished 12-inch profile, responsive support, and a distinctly refined comfort surface. Its 7-Zone Honeycomb Pocket Spring system is designed to provide differentiated support across the body, while a knitted pillow top with ViroSafe™ and Soft Touch Foam adds cushioning and a smooth, inviting feel. Reinforced edge support helps stabilize the perimeter and maximize the usable sleep surface. The result is a contemporary hospitality mattress that pairs contouring comfort with structured support, making it well suited to properties seeking an elevated guest experience in a streamlined one-sided design.

PRODUCT OVERVIEW

The Prestige Suite Plush (Two-Sided) is a flippable hospitality mattress designed to pair a softly cushioned surface with durable, responsive support. A Pocketed Coil System works beneath CushionGel Memory and Cool Twist Gel Foam to contour to the body, ease pressure points, and help disperse warmth for a more comfortable sleep environment. Total Edge® Foam Encasement reinforces the perimeter, supporting edge-to-edge comfort and a stable usable sleep surface. With its two-sided construction, the Prestige Suite provides hotels with added rotation flexibility while maintaining the plush, polished sleep experience expected from an upscale guest-room mattress.

PRODUCT OVERVIEW

The Signature Suite (Two-Sided) offers hotels a versatile choice between Pillow Top and Plush comfort profiles, both built around a responsive Pocketed Coil System and durable flippable construction. The 13.5-inch Pillow Top pairs CushionGel Foam with Cool Twist Gel Foam for enhanced cushioning, while the 13-inch Plush configuration combines Cool Twist Gel Memory with CushionGel Foam for a softer, contouring feel. Total Edge® Foam Encasement reinforces the perimeter for consistent edge-to-edge support and usable sleep space. Designed for hospitality operations, the collection balances guest comfort, serviceability, and the longer-term flexibility of a two-sided mattress.

PRODUCT OVERVIEW

The Sterling Suite Plush (One-Sided) delivers a streamlined 12-inch hospitality profile with a soft, contouring comfort direction and the convenience of a no-flip design. A Pocketed Coil System provides responsive support beneath the selected comfort build, while Total Edge® Foam Encasement reinforces the perimeter for more consistent edge-to-edge support and usable sleep space. Developed for hotel environments, the Sterling Suite is intended to balance everyday guest comfort, durability, and efficient room servicing. Final local comfort-layer specifications are confirmed with the hospitality sales team at quotation so the finished build can be matched to the property's requirements.

PRODUCT OVERVIEW

The Sterling Suite (Two-Sided) gives hospitality operators a choice of Plush and Pillow Top comfort in a durable, flippable format. The 12-inch Plush configuration combines a quilted plush surface with PillowSoft Foam and CushionGel Foam for cushioned, contouring comfort, while the 13.5-inch Pillow Top provides a deeper premium profile with final comfort-layer specifications confirmed at quotation. Both configurations use a Pocketed Coil System and Total Edge® Foam Encasement to support the body and reinforce the perimeter. The two-sided design adds rotation flexibility, helping properties balance guest comfort, serviceability, and long-term mattress use.

All dimensions are in inches. Dimensional tolerance: ±0.5 in.

CONFIGURATION

One-sided or two-sided	Keep the selected construction type with your model reference. One-sided models are no-flip designs; two-sided models have sleeping surfaces on both faces.
Mattress only or with foundation	Let our team know whether foundations are required, or whether your existing bed supports will be retained.
Surface style and height	For a grouped collection, specify the exact surface style. Mattress heights exclude the foundation and bed frame.
Pullout sofa requirements	Provide the sofa mechanism model, open mattress dimensions and permitted folded thickness before choosing a replacement mattress.
